1. What is the biggest change in our culture or nation that you wish could change back to the way it was before? What is your greatest anticipation for the future because of the current changes?

2. In Hancock County, as of 2010, there were (and are at least) 45,096 people out of our population of 54,418 who are "unclaimed" as to faith and church connection. (Only 1,288 evangelical Christians. See [www.thearda.com](http://www.thearda.com)) Why do you think this is?

3. How are you part of the problem? How are you part of the mission?
